

1st Grove Rainbows have used the church hall several times in the last year for their Saturday morning sessions. We always appreciate the extra indoor and outdoor space here - we have used the garden for treasure hunts, games and finding natural materials to make insect shelters, and have used the main church as a breakout area for some activities and discussions. We are very happy with the facilities in the hall and kitchen, and our good relationship with the church community. Some members also took part in the Remembrance Day and Christingle services, important annual traditions for local guiding.

Best wishes,

Clare
